

CBAY Transcription Services, Inc.

**CBAY Transcription Services, Inc.** has teamed up with **Olympus America** and **M\*Modal** to provide the ultimate Speech Recognition Software and Hardware bundle. Fluency Direct for Practices by M\*Modal is just what the Doctor ordered.

# Fluency Direct for Practices

**HIGH-PERFORMING, COST-EFFECTIVE FRONT-END SPEECH RECOGNITION TO POWER YOUR EHR.**

**Only \$1,549.99 for a 3-Year Software License & an Olympus Speech Microphone.**

M\*Modal **Fluency Direct for Practices™** is an advanced front-end speech recognition solution that allows clinicians to conversationally create, edit and sign clinical notes directly within EHR templates.

- ✓ Designed to meet the unique needs and budgets of small physician practices, this solution enables clinicians to quickly capture the subjective narrative necessary to adequately document care in the EHR—anytime, anywhere, and on any device.

**The same top-ranking speech recognition chosen by leading hospitals and academic facilities is now available for use in small practices of any medical specialty.**

- ✓ Doctors, nurses, physician assistants and other care providers can now capture the complete patient encounter without being restricted and slowed down by having to type into EHR fields. Physicians can efficiently and completely capture the uniqueness and complexity of each patient encounter in their own words, including impressions and conclusions.
- ✓ Fluency Direct for Practices leverages proprietary Speech Understanding™, which is far more than just voice-to-text technology as it includes Natural Language Understanding technology for contextual understanding of the physician narrative to improve accuracy. This highly accurate portable and secure speech solution covers sub-specialty medical terminology and supports all regional accents.

To optimize user experience, everything you need to start dictating is conveniently included in the box: a microphone and easy access to the client to install. Easy, click-once installation from a web address and minimal software training requirements ensure that you are up and running in no time. Uniquely, auto-updates and upgrades ensure that you are always using the latest version of the M\*Modal solution.

**Only \$1,549.99 for a 3-Year Software License & an Olympus Speech Microphone.**  
**Training, Installation and Support Included!**
